

Overview of Atlantic Research Technologies' Executive Search Services in Recruiting for Financial Management Searches

By Grok, 6 January, 2026

Atlantic Research Technologies (ART), established in 1987, specializes in global executive search for Financial Management roles, including Chief Financial Officers (CFOs), Vice Presidents of Finance, Finance Directors, Controllers, and specialized positions like Mergers & Acquisitions (M&A) VPs or Directors. Their services focus on recruiting finance leaders who enhance efficiency, effectiveness, and profitability, serving as strategic advisors to senior management for forecasting and planning in dynamic global economies.

ART emphasizes long-term placements that align with client goals, addressing needs from pre-IPO startups to established multinationals undergoing expansions, reorganizations, or IPO processes. While no specific success metrics are detailed, their approach prioritizes visionary candidates who enable secure future planning and differentiate clients in competitive markets. Expertise and Sector Coverage ART's expertise centers on sourcing finance professionals who go beyond traditional roles like fundraising or cost-cutting, acting as trusted advisors for realistic strategic options in good and bad times.

They address challenges such as global business expansions, joint ventures requiring international finance and taxation expertise, and the need for M&A or IPO-savvy leaders. Sectors covered include Semiconductors & Electronics, Industrial Products & Equipment, Engineering & Construction, Consumer Products & Services, Medical & Health Technology, Energy & Power Generation, Chemicals & Advanced Materials, Aerospace & Aviation, Automotive & Transport, IT & Communications Services, FinTech & Business Services, and Logistics & Supply Chain Services.

Clients range from pre-IPO startups seeking venture capital connections to large/medium-sized companies needing M&A or international finance skills.

Positions Recruited

ART recruits across a range of financial management roles, often requiring 8-15+ years of experience, CPA/CA certifications, GAAP/IFRS knowledge, and skills in budgeting, forecasting, M&A, compliance, and team leadership.

Key titles include:

- CFO (for startups, growth firms, or multinationals)
- VP Finance/Administration
- Finance Director/Manager

- Financial Controller (e.g., Plant, Regional, Supply Chain)
- Specialized roles like VP FP&A, VP M&A, VP Treasury, or Risk Management Director

Requirements emphasize strategic acumen, international experience, fundraising/IPO expertise, and multicultural fluency, particularly for global operations.

Global Reach

ART conducts worldwide searches, with a focus on international finance needs, including oversight of multi-country operations, compliance with local/US GAAP, and support for joint ventures or expansions. Their work spans the Americas (US, Canada), Asia-Pacific (e.g., China, Taiwan, Singapore, Korea, Vietnam), and implies capability in other regions through global client support. While no searches are directly located in Europe or Latin America, several involve scopes or responsibilities in those areas, such as managing European business units or Latin American M&A/operations.

Review of Past and Current Searches

The listings provide examples of past search assignments, with no explicit distinction for current openings. ART's work emphasizes CFO and senior finance roles in manufacturing, electronics, energy, and services, often for US-based or Asia-Pacific operations, with patterns in IPO/fundraising expertise, GAAP compliance, and multicultural leadership. To address the request, examples with scope in Latin America and Europe have been added below (based on roles mentioning responsibilities, markets, or operations in those regions). Below is a table summarizing key examples by region:
